COURSE OVERVIEW

In this course, you will learn about the enhancements from Creo Parametric 4.0 to Creo Parametric 7.0. This course will help you efficiently use the new enhancements introduced in Creo for the main sections of the Creo Curriculum Guide.

TARGET AUDIENCE

Users with a strong knowledge of Creo Parametric looking to learn about the new Creo updates and enhancements.

PREREQUISITES

- Fundamentals of Creo Parametric

LEARNING OBJECTIVES

- Review the new fundamental Creo enhancements related to installation, data exchange, interface, and sketcher
- Review the new Creo enhancements related to modeling, assembly, and documentation
- Review the new Creo enhancements related to surfacing, sheetmetal, and cabling
- Review the new Creo enhancements related to analysis and other modules including Creo Simulation Live, flow analysis, generative design, Creo Design Share, and both additive and subtractive manufacturing
