COURSE TYPE

- Technology

DURATION

- 3 Days

DELIVERY METHOD

- Online
- Regional Classroom
- Onsite

DELIVERY LANGUAGES

- English

COURSE OVERVIEW

In this course, you will configure Kepware Server to connect to various devices. Different client interfaces, such as OPC, REST, ThingWorx, and others, are explored.

TARGET AUDIENCE

Users with little to no experience with Kepware Server will benefit from this course.

PREREQUISITES

- None

LEARNING OBJECTIVES

- Connect Kepware Server to devices using various drivers
- Configure settings in Kepware Server for optimal data transfer
- Explain ways the OPC standards work in the server model
- Distinguish between different communication methods from client to server and server to device

- Gain access to diagnostic tools used for troubleshooting and debugging
